## NEWSLETTER

Dear members,

With the new school year approaching, we would like to remind you of a practical benefit available through APER's partnership with IRIS. The IRIS Advantage Program is available not only to APER members, but also to their families. This is a good time to plan eye exams and eyewear for your children, and for yourself.

By registering with the **"APER" access code**, you can save \$150 on prescription eyewear, \$50 on eligible non-prescription sunglasses and 50% on Palma prescription lenses for an eligible second pair.

These offers complement your existing vision care coverage and are available year-round throughout the IRIS network of more than 140 locations across Canada.

To take advantage of the program, register using the APER access code and present your benefit at the time of purchase. Some conditions apply, and the offers generally cannot be combined with other promotions.

[View the offers and register.](#)
