My Account: Retraite Québec releases a new version to make the life of its clients easier

Retraite Québec has released a new version of [My Account](#). Discover the updated digital space that has been designed to make the life of its clients easier. Intuitive navigation, an interface adapted to all types of mobile devices, practical features and a safe web environment are all good reasons to consult it.

Among the new features, this one makes the steps easier before retirement:

A person can also file and track an application for his or her pension under the Québec Pension Plan.
