

NEWS AND TRAINING

October 25, 2023

Dear members,

Here is the most recent news:

- **Six (6) former Prime Ministers** ask to maintain the independent university centers and institutes out of Santé Québec in Mr. Dubé's reform.
- **Minister Dubé maintains the hard line** and will not change his reform... it seems to me that we have already starred in this film with Mr. Barrette?!
- The DRHCAJ were given the mandate to abolish their own position so that there would be a director for HR, a director for Communications and a director for Legal Affairs. They have until February 1, 2024 to achieve everything... **once again, micro-management from the MSSS and "one size fits all" even if the establishments are very different.**
- The common front has announced a **general strike for November 6**. APER is ready to claim your overtime if it is not paid to you.

The more it changes, the more it is the same...

TRAINING MANAGEMENT TOOLS

NOVEMBER 2, 2023 AT NOON IN teams

Everything that the jurisprudence tells us in relation to manager responsibilities and how to better protect yourself.
